Heads up everybody!

We have decided, after many meetings, to take on a large endeavor to make sure those that were devastated by hurricanes this past year do not go without a Christmas for their children. We have carefully selected the city in which will be going into due to the fact they were hit several times and they are very low income and really in need of a holiday rescue.

Below are the details of what we are going to do. We have teamed up with the Texas Bikers. It should be fun for everyone!
